SUMMARY

Full-Stack Developer with 2.6+ years of experience in Node.js, NestJS, React, AWS, and Azure, building scalable web applications, APIs, and cloud-native solutions. Experienced in Azure, AWS, serverless architectures, SQL/NoSQL databases, and CI/CD pipelines, with a strong focus on performance and maintainability.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Python.

Front-End: HTML5, CSS3, Bootstrap 4, Materialize, Chakra UI, Ant Design, React.js, Redux, Next.js

Back-End: Node.js, Nest.js, Express.js, Handlebars.js, Payment Gateways.

Database: MongoDB, MySQL, PostgreSQL, Microsoft SQL Server.

Cloud / DevOps: AWS (Lambda, S3, SES, EC2, RDS), Azure (App Service, Blob Storage, AI Search, Functions, Event Grid), CI/CD, Docker.

Tools: VS Code, Cursor, Git/GitHub, Bitbucket, Postman, DBeaver, Jira, Redis.

PROFESSIONAL EXPERIENCE

SR. SOFTWARE ENGINEER – Max Trans Systems, Hyderabad

July 2025 – Feb 2026

- Led frontend architecture revamp with reusable components, cutting redundant API calls by 35% and enhancing maintainability and scalability.
- Implemented Redis-based caching for high-frequency APIs, streamlining repeated database queries by ~30% and optimizing average response time by ~25%.
- Engineered API rate limiting, protecting services from traffic spikes and preventing abuse across critical endpoints.
- Architected dynamic PDF generation pipelines for reports, receipts, and invoices supporting multiple templates and large datasets.
- Designed high-performance data migration pipelines, processing 1,000+ records using optimized SQL queries and backend logic.

FREELANCE – Nexg Works, Hyderabad

April 2025 – June 2025

- Designed a secure authentication framework with token-based authentication, domain-restricted access, IP tracking, 2FA, bot protection, and CSP enforcement.
- Automated CI/CD pipelines for linting and deployment, mitigating manual review effort by ~40% and accelerating release cycles.

SOFTWARE DEVELOPER - Aadvi Tech Solution, Hyderabad

July 2023 – March 2025

- Developed and deployed 3+ production-grade web applications, handling domain setup, deployment, and client delivery.
- Improved frontend performance by ~30% through optimized Redux Toolkit (global) and component-level state handling.
- Integrated WebSocket-based real-time notification system enabling instant user alerts across multiple client modules.

SOFTWARE INTERN – Gusto Valley Technovations, Hyderabad

May 2023 - June 2023

- Programmed a responsive web application using React and Next.js, utilizing custom hooks and efficient state management for scalable component logic.

PROJECTS

EZ.ROI | Node.js, React.js, Nest.js, Redux, Express, MySQL, payment gateways, Tailwind, Azure Services

- Migrated monolithic Node.js services to modular NestJS (MVC), improving maintainability and testability using Jest.
- Enabled secure large file uploads (5GB+) using **Azure Blob Storage** with SAS URLs and managed email workflows via **Azure Email Communication Services**.
- Integrated **payment gateways** with webhooks, signature verification, real-time status updates, and **local tunneling** for testing.
- Enforced **Azure AI Search**-based global search, reducing MySQL/Sequelize queries by **60%** and latency from **1.8s to 0.95s**.

MRS | Node.js, Express, React.js, Redux-toolkit, Microsoft SQL Server, Bootstrap, AWS - S3, SES.

- Executed SSG for SEO and faster load times, boosting Google index coverage by 35% and initial page load from 2.1s to 1.2s.
- Integrated AWS S3 for file storage and AWS SES for transactional emails, with file upload tracking across all business stages.
- Handled long-running executions using **cron jobs** and queue-based processing for efficient task management.

Vigil - X | Nest.js, React.js, Redux-toolkit, MS SQL, Material UI, AWS - S3, SNS.

- Built the core application foundation, designing the project structure, reusable services, and scalable architecture.
- Established application boilerplate and modular architecture, defined coding standards and reusable utilities, and conducted R&D for scalable features and future system enhancements.

EDUCATION

M.V.S.R. College of Engineering

Bachelor of Engineering in Information Technology

Aug 2019 - June 2023

CGPA: 7.0/10

Vishra Junior College

Intermediate

May 2017 - July 2019

CGPA: 9.2/10

ACHIEVEMENTS

- Successfully achieved a certification in **Front-End Development (React)** and **JavaScript** from HackerRank.
